## Preface

Central Bureau of Statistics (CBS) Nepal is pleased to bring out the series of results of the eleventh National Population and Housing Census in 2011 (NPHC 2011). The final result of this census was disseminated in November 2012. Disaggregated tables and thematic volumes of results are in continuous way of publishing. In fact, the census has enormous potentiality of analyses to be done on demographic, social, economic and spatial characteristics of the population. This report contains statistical tables related to administratively declared municipal areas (Metropolitan City, Sub-metropolitan City and Municipalities) which were prevailing at the time of census operation in 2011. I hope, this volume will be very useful and will meet the users' demand on information of urban areas. It contains major statistical tables related to Form I and Form II administered for data collection.

On this occasion, I would like to thank Dr. Rudra Suwal, Deputy Director General of the Bureau for his overall co-ordination as well as his direct involvement as section chief at the time of census operation. I also would like to thank Director Shanker Lal Shrestha and Indra Bahadur Karki for their valuable contribution in preparation of this publication. Hearty thanks go to Statistical Officer Yadu Nath Acharya and Computer Officer Dol Narayan Shrestha for their contribution in data management and related tasks. My thanks also go to Statistical Officer Sunil Kumar Shrestha, Statistical Assistant Bishnu Raj Regmi and other staffs of the Population Section. I also want to thank all other staffs of the bureau who were involved in any of the phases of census process.

Finally, I would like to thank all respondents who provided invaluable information during the field operation and appreciate all those who had extended hands in this national endeavor and helped to make the census a grand success.

CBS always welcomes comments and suggestions from users which would be valuable for the improvement of our future publications.

August, 2014

Bikash Bista

Director General  
Central Bureau of Statistics  
Kathmandu, Nepal

Detail reports on Urban areas (58 municipalities) of individual information are incorporated in Volume 07 of the publication. Due to the volumes of pages, 3 different parts of this volume are maintained.

The 3 different parts of Volume 07 are as follows:

- Part I : General and Social Characteristics Tables (Household and Population, Age-Sex Distribution, Caste/Ethnicity, Mother Tongue, Disability and Literacy Status)
- Part II : Social and Economic Characteristics Tables (School Attendance, Fertility and Economic Activities)
- Part III : Social and Economic Characteristics Tables (Economic activities and living arrangement of children)

# Content

## Volume 07 Part II Social and Economic Characteristics Tables

Table no.	Title	Page no.
Table 11:	Population aged 5 to 25 years by school attendance and level of education (below SLC), sex and age. ....	1
Table 12:	Population aged 5 - 25 years by school attendance, sex and age .....	119
Table 13:	Ever married female population 15-49 years of age by reported number of children ever born and age of mother .....	159
Table 14:	Ever married female population 15-49 years of age and children born alive in the last 12 months by age of mother and sex of child.....	183
Table 15:	Reported number of children ever born, died and still alive by sex and age of mother. ....	203
Table 16:	Population 10 years of age and over by economic activity, sex and 5 years age groups. ....	227
Table 17:	Economically active OR not economically active population aged 10 years and over by literacy status and sex.....	257
Table 18:	Usually active population 10 years of age and over by major occupation, sex and age groups .....	287
Table 19:	Usually active population 10 years of age and over by major industry, sex and age groups .....	358
Table 20:	Usually Active population 10 years of age and over by literacy status/level of education, sex and major occupation. ....	455

Table 11: Population aged 5 to 25 years by school attendance and level of education (below SLC), sex and age.
